Specialized Care for Individual Needs

Maxim Home Health Resources (MHHR) is nationally recognized as a leading provider of home healthcare services and is highly capable of managing all of your in-home healthcare needs. Our central focus is producing the finest and most appropriate outcomes for both patient and family. Whether you are recovering from surgery, illness, or managing a disease, we are here to provide nursing care, rehabilitation, and support services in the comfort of your home.

Maxim's team of skilled nurses and therapists are licensed and insured. Maxim understands that each individual's health care requirements are unique, that is why we assign only the most qualified and compatible caregivers to meet your specialized needs. To begin your care regimen, we will send a nurse or therapist to the home for an initial consultation and collaboration with you and your Physician to develop a detailed and effective plan of care.

What you can expect from MHHR

- ▶ Patient Evaluation and Assessment within 24-hours of Referral
- ▶ Advanced Medical Technology to Produce the Best Possible Outcomes
- ▶ Dedicated and Committed Medical Professionals

Maxim Home Health Resources offers the following resources and services:

- ▶ **Skilled Nurses**- Regularly scheduled visits by a Registered Nurse (RN) or Licensed Practical Nurse (LPN), ensuring each patient receives appropriate and professional care while attending to all clinical needs.
- ▶ **Therapy Services**- Our Therapists customize a rehabilitation program around the individual needs of each patient. Our staff includes Physical Therapists, Occupational Therapists, Speech Language Pathologists, and Medical Social Workers. Evaluations, treatment, and education are provided for individuals with total joint replacements, orthopedic conditions, neurological disorders, post-surgical procedures, stroke rehabilitation, and speech and swallowing difficulties.
- ▶ **Registered Dietitians**- Our dietitians work with the homecare team to coordinate the nutritional assessment, intervention, and education of each patient.

- ▶ **Certified Home Health Aides**- CHHAs provide assistance with activities of daily living and personal care under the supervision of an RN.
- ▶ **Wound and Ostomy Care**- Directed by clinical nurse specialists with advanced training and expertise in the care of surgical and/or pressure wounds, patient education on self-care, and instruction for new colostomy patients.
- ▶ **Disease Management**- Coordination of care and education in order to provide more efficient and effective care that reduces the short- and long-term complications of conditions such as heart disease, stroke, cancer, and diabetes.
- ▶ **Therapeutic Counseling and Community Resource Referrals**
- ▶ **Mental Health Nursing and Assessment***- A mental health assessment gives the Physician an overall picture of the patient's emotional state and cognitive functions.
